

# Edie Bonneville

**Edie Bonneville**, full time foster, event coordinator and training educator, started volunteering with Dog Star in October 2014 after she came across the rescue's Facebook page. "I volunteer to give as many dogs as I can a new lease on life," Edie stated. "Being part of their success stories fills my heart." It's Edie's goal to condition and train the rescues so they can become trusting and feel safe in their new environment. Last fall, Edie fostered a dog named Hayley who was brought up from the south after being rescued from a large hoarding case. What Hayley lacked in training and social behavior she made up for by her loving demeanor. Edie worked with her extensively for a few months and made immense progress. Hayley and another rescue were adopted together by a wonderful, loving couple. "Dog Star Rescue is a top-notch rescue organization that I'm proud to be a part of," Edie noted. "The camaraderie is palpable." Edie has helped to make long lasting improvements to the lives of many animals and continues to bring a sense of hope and positivity to the rescue. Edie also attends Canine College training classes and assists in various training classes. She also works with local animal control officers and shelters to help make shelter dogs more adoptable through basic training.
